The Sport and Exercise Nutrition Register (SENr) is delighted to announce that it will hosting a sport and exercise nutrition stream at this year's British Dietetic Association Research Symposium. The stream will be divided into two categories: Those ‘New to Research’ (SENr Graduate Registrants) and ‘Established Practitioners / Researchers’ (all other categories of registration).

SENr Registrants whose abstracts are accepted will be invited to present at the Symposium, where one overall winner from each category will be selected and will receive a £100 book token.

Accepted abstracts will be considered for publication in the Journal of Human Nutrition and Dietetics. Cost to submit an abstract and attend starts from £50.00.

This is a fantastic opportunity for SENr Registrants to showcase innovative and exciting research and to become further established and recognised within the sport and exercise nutrition field. **NB. All entrants must be current SENr registrants (in any of the four categories of registration).**

Abstract submission will be open from 3rd May until 8am on Monday 11th July 2016.

For more information on the guidelines and to submit an abstract:

**Abstract Criteria for Sport and Exercise Nutrition Stream**

Submissions must be based upon original research, focussed in the area of sport and exercise nutrition. Abstracts must be based upon unpublished work.

The research must demonstrate a strong implication for applied practice.

Guidelines on how to prepare your abstract are available on the website
